ABOUT ME

I am a very motivated and adaptive, always aiming to apply the acquired dynamic communication and organizational skills. I have a methodological oriented approach to clients and colleagues, desire to work and a strong strive to finish the things I have started. I am a team player because I believe teamwork increases the efficiency and productivity of the collective, keeps a positive work environment and helps make work fulfilling. Also I have a strong attention to details because it makes me more effective in the workplace and reduces the likelihood of error. Maintain a calm demeanor when expectations change or things don't go as planned. I always stay focused on what needs to be done; never lose sight of the end goal. Ability to adjust my frame of thinking and quickly change priorities without getting flustered.

WORK EXPERIENCE

18/04/2022 – 10/07/2024 Plovdiv, Bulgaria

C/C++ Programmer Strypes

- Revamping build processes by implementing strategic code modifications. This optimization streamlines development workflows and enhanced efficiency.
- Migration and creation of Unit Tests
- Collaborated in code review sessions, contributing decisively to team discussions.
- Maintained effective communication with clients through weekly meetings.
- Participate in task evaluation processes and clearly explain our changes to architects to specify which tests would successfully cover code changes.
- Authored comprehensive test documentation to validate code changes.
- Conducted thorough progression, regression functional testing following code alterations.
- Deployments of code updates
- Authored Python scripts to automate various investigative work procedures.
- Successfully migrated unit tests to GTEST framework.
- Actively engaged in agile methodologies, including: Sprint planning, Daily stand-ups, Retrospectives, Backlog refinements, Estimation processes
